1st place  
& Fastest  
Employment  
Growth Award  
Humanihut

Established in 2013, Humanihut offers a complete solution for deployed camp requirements in almost any environment.

As a former soldier, Co-Founder and Managing Director of Humanihut, Neale Sutton, had first-hand experience in the hardships of conflict. That experience was his biggest inspiration behind designing the Humanihut Field Infrastructure System as the ultimate, all in one temporary infrastructure solution, offering rigid yet foldable accommodation, clean drinking water, sewerage management, and power generation.

2016 was a milestone year for Humanihut, when the business came 1st in Australia and 63rd in the world in the Disrupt 100 – a bi-annual publication celebrating the businesses with the most potential to influence, change or create new global markets.

Since then, Humanihut has won numerous other awards and placed first in this year's Fast Movers SA with an astonishing average growth of 752% - a Fast Movers record. Neale and his dedicated team have also taken out the Fastest Employment Growth Award, with average FTE growth of 423%.

Neale's advice for fellow South Australian businesses? "Have tenacity. Lots of effort can go into finding angel investors, for example – which may or may not work out. Also, love what you do, and make a real difference."

Their vision is “to enrich lives, grow communities and be acknowledged as an industry leader in quality design and construction. Above all, to tailor a well-rounded building solution that is affordable, sustainable and reliable.” Destination Homes CEO, Stephen Edwards, says Fast Movers is a “great way for businesses to be recognised for their success and also to really encourage the whole team to get behind the growth of the business.”
